C1091 CHUTE STOP

Chute Stop blocks the pinch point so the operators can safely clear their hands from the area. By depressing its lever, the Chute Stop will disengage allowing the foldover chute to drop into alignment. When the foldover chute is raised a short distance, the Chute Stop will spring back to safety position. Comes with

EATON HYDRAULICS

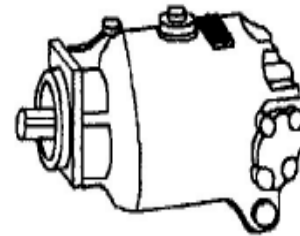

STANDARD

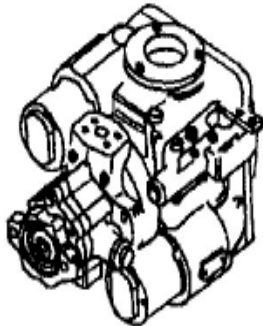

DUAL ELEMENT

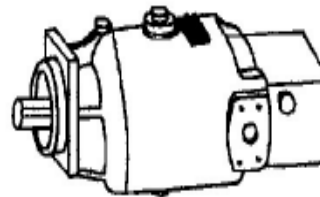

W/O HPRV

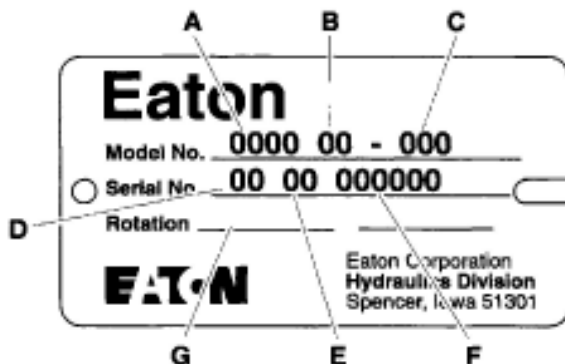

A-PAD

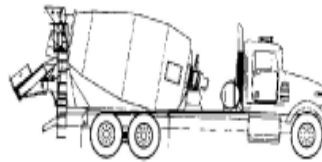

W/ HPRV

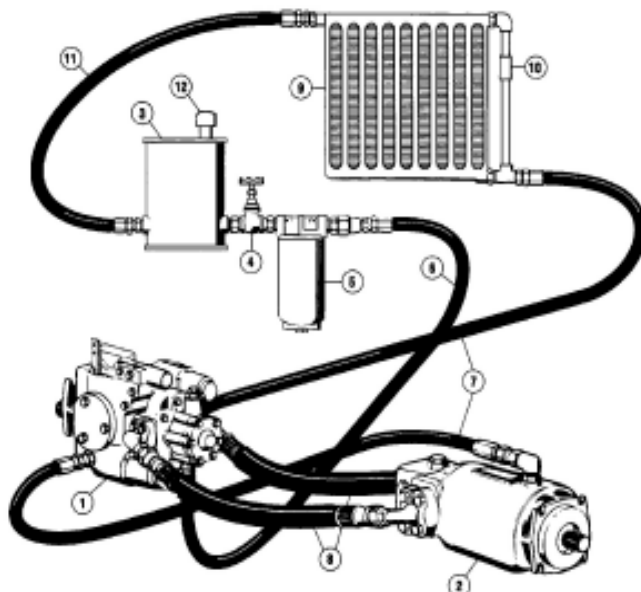

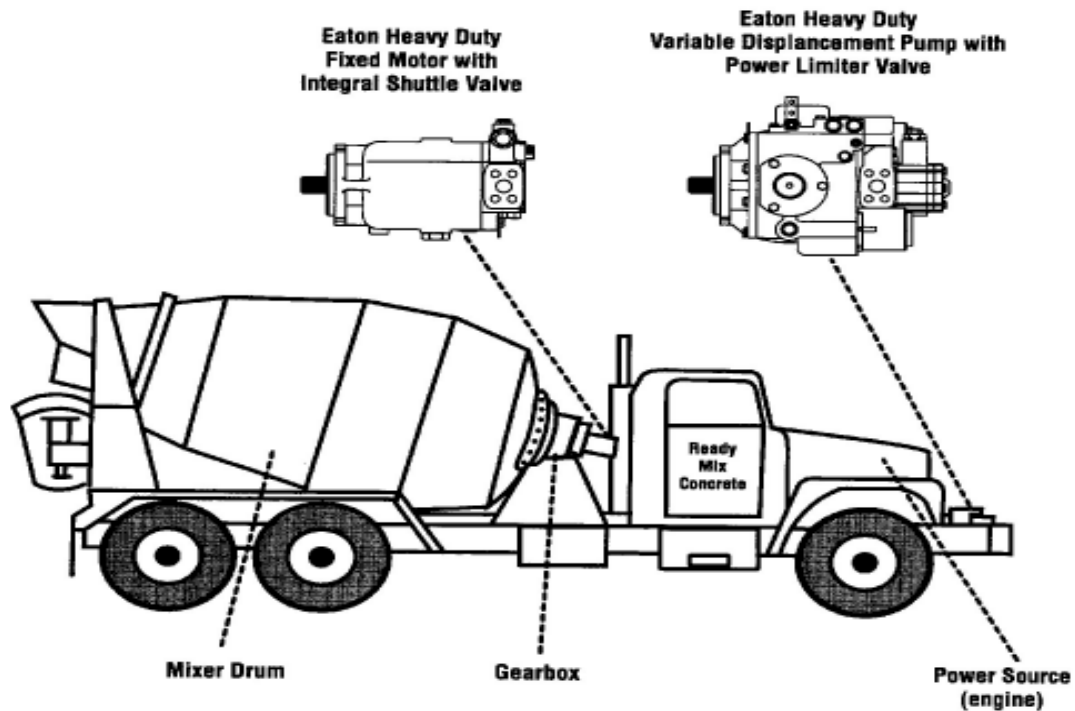

Suggestion: When replacing either the pump or motor, it is recommended that both units be changed out and the hydraulic system flushed to clean the hoses, filter & reservoir of any contaminants

When ordering or requesting quote information on pump and motors, it is important that you have the Pump or Motor Model and Serial #s. There are a lot of variable options that have been used in the mixer industry. So to ensure you get exactly the same units or parts for your repair job check these numbers first.

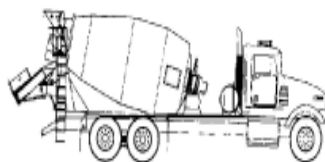

McNeilus Mixer Parts

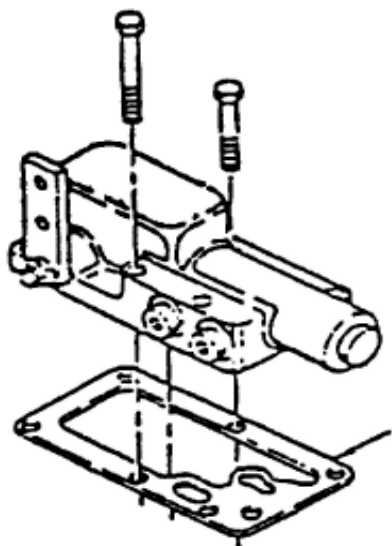

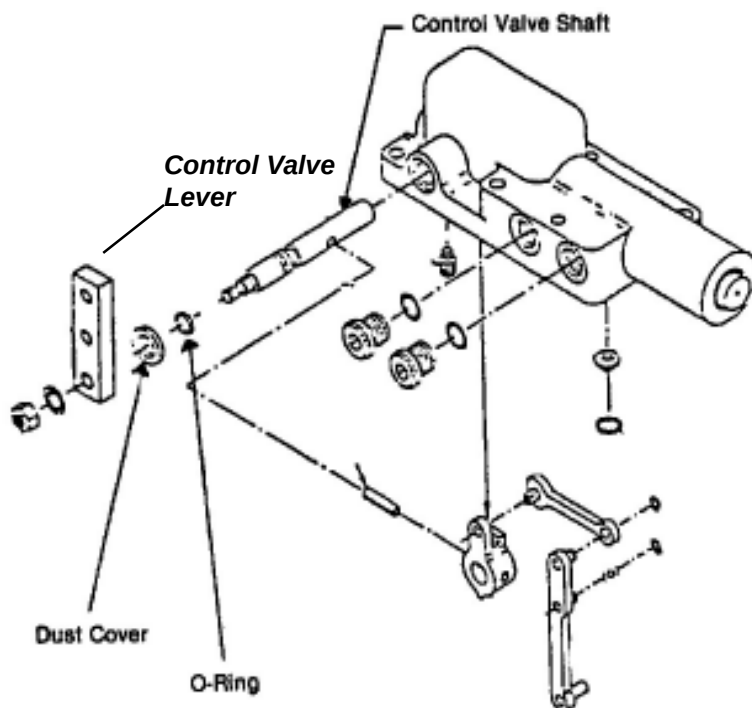

Typical Hydrostatic System

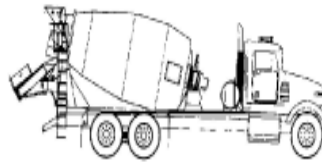

1. Variable Displacement Pump
2. Fixed Displacement Motor
3. Oil Reservoir
4. Shut Off Valve
5. Suction Filter with out by pass valve
6. Charge Pump Inlet Hose
7. Pump & Motor Case Drain Hoses
8. High Pressure Hoses
9. Heat Exchanger (Cooler)
10. Heat Exchange By-Pass Valve
11. Reservoir Return Hose
12. Reservoir Fill Cap & Breather
